AGENCY OF SWEDEN

WE SUPPORT THE SUSTAINABLE DEVELOPMENT GOALS 

BHS Logistics AB has received its sustainability declaration according to SIS/TS 2:2025 to SS-EN ISO 26000:2021, re-verified according to SIS/TS 3:2025, on October 24, 2025, which demonstrates the organization's social responsibility to maximize the contribution to sustainable development.

The credibility of the sustainability declaration and the correspondence with real conditions have been verified by VERIFY Agency of Sweden AB with accreditation number 10482 and is accredited by Swedac for verification according to ISO/IEC 17029:2019.

The sustainability declaration consists of the management statement and the organization's answers to the questions in SIS/TS 2:2025, based on SS-EN ISO 26000:2021 Organizational social responsibility - Guidance.

The scope of this verification refers to BHS Logistics AB's operations in Sweden, with offices in Gothenburg and Malmö. Decisions in this matter have been made by Decision maker, Boris Matijas, following a presentation by Lead Auditor, Eva Vati.

Assessment and statement

BHS Logistics AB is a Swedish freight forwarding company that offers transport, distribution, forwarding and logistics solutions within road, sea and air traffic as well as intermodal transport.

BHS Logistics AB collaborates with local organizations to support social sustainability and is committed to reducing climate impact through the use of renewable fuels. The organization has a structured method for evaluating its sustainability performance by defining its own metrics and KPIs linked to specific sustainability goals. They have implemented a Code of Conduct to ensure ethical business practices and have been certified according to ISO 9001:2015 and ISO 14001:2015. At the same time, the company is the first freight forwarder in Sweden to be verified according to ISO 26000.

BHS Logistics AB has made significant progress since the last verification, especially by integrating sustainability principles into its business model and operational management. The company has implemented an action plan focused on reducing carbon emissions, including an agreement with domestic carriers to switch to fossil-free alternatives within two years.

By working with biodiesel, the company has reduced its CO2 emissions by over 484 tons in 2024. They actively involve their stakeholders in sustainability dialogues and conduct annual customer satisfaction surveys. These efforts help to maximize BHS Logistics AB's positive impact on sustainable development and ensure that social and environmental responsibility is maintained throughout the value chain.

VERIFY Agency of Sweden AB has verified all levels of operations that the organization states in its sustainability declaration. VERIFY Agency of Sweden AB has carried out the verification through interviews with the organisation's staff and through a selection of the documentation that the organisation refers to in the sustainability declaration and in the management of its sustainability work, such as policies, business plans, meeting planning, analyses, assessments, protocols, surveys, communication efforts and training. A site audit has also been carried out.

Conditions

The declaration must be renewed within twelve months from the date below. The declaration may be withdrawn before the expiry date if facts have emerged that show that the organisation's social responsibility has decreased.

When the sustainability-declaration is communicated publicly, it must be done together with the verification body's statement.

The decision in this matter has been made by the Decision-maker, Boris Matijas, after a presentation by the Lead Auditor, Eva Vati.
